

KWF Focus-Days 2015
Small scale forestry – What to do? Sustainable management in small forest land

16th / 17th October 2015
Groß-Heins
County Verden, lower Saxony
Germany

3 KWF Focus-Days 2015

The KWF is implementing a RLL in Lower Saxony focusing on mobilization of non-professional forest owners. In this context the KWF is organising a special event.

The third KWF focus-days will take place on 16th and 17th October 2015 – in the forestry district of Groß-heins, county Verden, northern Germany. The event will be organized by the KWF e.V. and the “Waldbesitzerverband Niedersachsen”.

The KWF Focus-Days are a professional event structured in the same way as the big KWF-Tagung, consisting of practical demonstrations and professional forums.

The event in Lower Saxony Groß-Heins (Verden) runs under the title "Small scale forestry – What to do? Sustainable management in small forest land ". This meeting of experts is designed as a “bring your boots conference”.

The aims are to give practical demonstrations and neutral assistance for the management of small forest areas. You will see tools and technique and their proper handling.

In forums and discussion panels there is the opportunity to discuss all aspects forest work, technique and management with experienced specialists.

The view is also drawn to environmental care and occupational safety, an attempt, to reduce the number of accidents in the circle of the casual users.

Invited are owners of small and scattered forest properties, consultants, services, etc.

Threefold focus on special topic

The KWF focus-days grip the event concept of the KWF-Tagung, but focus on specific issues of sustainable management of small scale forestry and practical demonstrations.

The event consists of three parts:

- => practical demonstrations in the forest
- => Expert forums / Workshops
- => special shows and technology exhibition with highlight of small scale forestry issues

The focus topics at both event- days:

- Training and further training
Safe handling with chainsaw and brush cutter, planting and forest protection
- Organization and management concepts:
consulting, collective forest utilisation
- Occupational safety and health protection
safe forest working, risk assessment.
- Silviculture in small scale forestry
Regeneration, forest-protection, nature protection benefits, forest certification
- Forest technology in small forests
attachments for agricultural tractors, semiprofessional forest technology, big technology use of forestry companies
- Inventory, measuring and information technology in small forests
- Bioenergy and firewood from small forests

The specialist forums are organized together with the partners of the focus-days. They will take place in a big tent. In the big tent are also info-stands.on various topics.

Interested companies are going to show and explain their products
